

## Time and Budgeting for Leisure Activities

### Student Activity Sheet B

Directions: You are given a \$30 per week allowance. Using the chart below, fill in some of the leisure activities you participate in (per week), as well as how many times a week you do that activity, and the cost of it. Total the cost of that activity per week in the right column. When you are done, total all the costs **you** wrote down (do not include examples) in the right column and place the amount on the “Weekly Leisure Cost Total” line.

Activity	Frequency	Cost	Total
<i>Yoga Class</i>	<i>2x per week</i>	<i>\$5 per class</i>	<i>\$10.00</i>
<i>Reading</i>	<i>daily</i>	<i>free</i>	<i>free</i>

**Weekly Leisure Cost Total:** \_\_\_\_\_

If your costs total more than \$30 per week, what leisure activities can you change to stay in your budget amount of \$30?
